

Subhash PGV

QA Engineer | Manual Testing | Automation Testing | API Testing | AEM QA

Hyderabad, India | +91 9052010682 | subhashpgv1128@gmail.com | linkedin.com/in/subhash-pgv-467a692b9

PROFESSIONAL SUMMARY

QA Engineer with 4.7 years of overall professional experience, including 2+ years in IT quality assurance for enterprise web applications, AEM websites, e-commerce platforms, and applicant tracking systems. Hands-on experience in test case design, functional, regression, smoke, sanity, UAT, API testing with Postman, backend validation with SQL, and defect tracking in Jira/Azure DevOps. Familiar with Selenium WebDriver using Java and TestNG, Agile/Scrum delivery, cross-browser validation, and release support. Known for clear documentation, practical defect analysis, and working closely with developers and business teams to deliver stable releases.

CORE SKILLS

Testing: Manual Testing, Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, UAT, End-to-End Testing, Cross-Browser Testing, UI Testing, Usability Testing, AEM Testing, Basic Performance Validation

Automation & API: Selenium WebDriver, Java, TestNG, Postman, REST API Testing, API Response Validation, Jenkins, Git

Database & Tools: SQL, MySQL, Jira, Azure DevOps, GitHub, Eclipse, VS Code, AEM Author, AEM Publish, DAM

Methodologies: Agile/Scrum, SDLC, STLC, Test Planning, Test Case Design, Defect Life Cycle, QA Estimation, Release Testing

Web Technologies: HTML, JavaScript, TypeScript, Web Application Testing

PROFESSIONAL EXPERIENCE

QA Engineer | Svegile Technologies | Hyderabad

Mar 2024 – May 2026

Project: Enterprise Applicant Tracking System (ATS)

Client: O2 Technologies, Inc.

Tools: Jira, Postman, SQL, Selenium WebDriver, Java, TestNG, Git, Jenkins

- Prepared and maintained test scenarios, test cases, test data, and defect reports for ATS modules covering candidate profiles, job workflows, authentication, and integrations.
- Analyzed requirements and participated in QA estimation to define test coverage before sprint execution.
- Executed functional, regression, smoke, sanity, and UAT testing across planned releases to verify business workflows.
- Automated high-value regression scenarios using Selenium WebDriver with Java and TestNG.
- Tested REST API workflows in Postman for third-party integrations including LinkedIn, Twilio, and Dice.
- Validated login, session handling, authentication flows, API status codes, request/response data, and negative scenarios.
- Used SQL queries for backend validation of data created or updated through application workflows.
- Logged, prioritized, and tracked defects in Jira; followed up with developers and verified fixes before release sign-off.
- Worked with developers, product owners, and stakeholders during Agile ceremonies, demos, and release cycles.

Consultant | Deloitte

Jan 2022 - May 2022

Project: E-commerce Pet and Food Supplies Application |

Client: Postman, AEM, DAM, Jira.

- Performed functional and regression testing for enterprise websites built on Adobe Experience Manager.
- Validated AEM templates, components, content pages, workflows, links, and publishing behavior across Dev, QA, UAT, Author, and Publish environments.
- Executed end-to-end test scenarios for content changes and customer-facing website flows.
- Performed cross-browser and UI validation to ensure consistency across business-critical pages.
- Logged defects in Jira, tracked resolution status, retested fixes, and supported release readiness.

RS / QA Analyst | AMRI Global (now Curia)

Aug 2018 - Sep 2020

- Performed analytical quality assurance testing of pharmaceutical compounds under GMP-regulated standards.
- Maintained validation records, QA documentation, compliance reports, and process evidence with high accuracy.
- Supported root cause analysis, deviation handling, corrective actions, SOP adherence, and audit readiness activities.
- Built strong documentation discipline, quality process awareness, and detail-oriented problem-solving approach.

EDUCATION

Master of Science | Acharya Nagarjuna University, Guntur

2017
